

# Cancer Prevention & Screening

A summary of core issues affecting Lake County

#1

## Years Lost from Cancer

In Lake County, the number of years of life we collectively lose due to cancer is about double the rate of California as a whole and is among the five worst rates in the state.

## Lung Cancer

Lung cancer is particularly burdensome in our county. We have the highest rate of lung cancer in California.

70 per 100,000

Lake County's lung cancer rate is 40% higher than the rest of California.

41 per 100,000
